Professional Summary

Full-Stack Developer (React.js, Next.js, Node.js, Express.js, NestJS, TypeScript) who builds complete web products: responsive React and Next.js front ends, secure REST APIs, and PostgreSQL, MongoDB and Redis data layers. Completed the DEPI and Route Academy programs and a Frontend Developer internship at Yalla Expand, and delivered 7 projects, including a multilingual business platform, an anonymous messaging platform with advanced authentication, and a role-based physiotherapy platform with booking and chat. Experienced in JWT authentication, role-based access control, automated testing, REST API integration and collaborative Git-based workflows.

Technical Skills

- **Front-End:** HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js (App Router), Vite, React Router, Redux Toolkit, Context API, NextAuth
- **Styling & UI:** Tailwind CSS, Bootstrap, Sass, Styled Components, Flexbox & Grid, responsive design, internationalization (i18n)
- **Back-End:** Node.js, Express (4 and 5), NestJS, REST API design, PHP (Native, OOP, MVC)
- **Databases:** PostgreSQL, MongoDB (Mongoose), MySQL, Prisma, Redis, SQL migrations and seeding
- **Auth & Security:** JWT access/refresh tokens, session management, Google Sign-In, two-step email verification, RBAC, bcrypt / argon2, Helmet, CORS, rate limiting, Zod validation
- **Testing:** node:test, Vitest, Supertest
- **DevOps & Tools:** Git, GitHub, GitHub Actions, Docker & docker-compose, Turborepo / pnpm workspaces, Vercel, Swagger / OpenAPI, Cloudinary
- **Other:** Reusable components, UI/UX-to-code, performance optimization, cross-browser compatibility, Prompt Engineering

Projects

ScaleBun – Marketing Website & CMS Dashboard (Next.js 15, React 19, TypeScript)

Frontend Developer Intern – Yalla Expand

Contributed to the development of a production-grade marketing website and CMS dashboard for ScaleBun, a React Native observability and engagement SDK, as part of the internship program at Yalla Expand.

- Contributed to frontend development using Next.js 15, React 19 and TypeScript.
- Developed UI components and website sections using JavaScript, React and Next.js.
- Built responsive, reusable UI components aligned with the project's design system.
- Collaborated with the development team on frontend implementation and integration within the existing architecture.
- Contributed to improving the overall user interface and user experience.

Power Master – Multilingual Business Platform (Next.js + Express/TypeScript + PostgreSQL)

- **Front-end:** Next.js (TypeScript) with internationalization (i18n) and translated message files, styled with Tailwind CSS and PostCSS.
- **Back-end:** layered Express + TypeScript API on PostgreSQL with 18 versioned migrations (roles, permissions, users, sessions, products, brands, categories, specifications, services, projects, clients, quote requests, audit logs).
- RBAC, argon2 password hashing, audit logging, Zod validation, Helmet, rate limiting, Cloudinary image uploads, Vitest tests and Vercel deployment.
- Live Demo: https://power-master-gamma.vercel.app/en | GitHub (front-end): https://github.com/omraan7/power-master | GitHub (back-end): https://github.com/omraan7/power-master-bac

PhysioHome – Home Physical Therapy Platform (React 18, Express, MongoDB)

Graduation project (DEPI).

- **Front-end:** React 18, Vite and React Router 6 with separate patient and doctor experiences: pain description chat and body map, therapist booking, messaging, progress analytics.
- Camera-based exercise tracking with MediaPipe Pose.
- **Back-end:** Express and MongoDB API with JWT authentication, role-based access, care-relationship rules for clinical data, double-booking prevention via a unique index, messaging, notifications and file uploads.
- API tests with node:test; deployable to Vercel (frontend and serverless backend) with MongoDB Atlas.
- GitHub: https://github.com/omraan7/DEPI-Graduation

Anonymous Messaging Platform (Next.js 15, Express 5, MongoDB, Redis)

- **Back-end:** JWT access tokens (15 min), rotating refresh tokens stored as HMAC hashes, per-request session checks cached in Redis with MongoDB fallback, optional email two-step verification and Google sign-in.
- **Features:** anonymous messages, reveal requests (accept/decline) opening private conversations, replies from both sides.
- **Front-end:** Next.js 15 with API proxying so session cookies work as first-party cookies.
- Security and quality: Helmet, rate limiting, Zod, file-type validation, sharp image processing, backend (Supertest) and frontend test suites.
- GitHub: https://github.com/omraan7/anonymous_messages

E-Commerce Web App (Next.js, React, TypeScript, Redux Toolkit, NextAuth)

- Full-featured store: authentication and sessions (NextAuth), cart, wishlist, checkout, dynamic routes for products, categories and brands.
- Global state with Redux Toolkit and Context API; services/actions/interfaces structure; external REST APIs for products and orders; loading states and responsive UI.
- Live Demo: e-commerce-omran2.vercel.app | GitHub: omraan7/E-commerce

Social Media App (React)

- CRUD for posts and comments; login, register and change password; protected routes with custom guards; modals, skeleton loading, follow suggestions and profiles.
- Live Demo: social-app-omran2.vercel.app | GitHub: omraan7/social-app

Movie & TV Explorer (React)

- External API integration for movies, TV shows and actors; dynamic pages; reusable cards, carousel and layout system.
- Live Demo: movie-app-lovat-two.vercel.app | GitHub: omraan7/movie-app

Training & Courses

- **Front-End Development Track – Digital Egypt Pioneers Initiative (DEPI):** HTML5, CSS3, JavaScript (ES6+), React.js, responsive design, REST APIs, Git & GitHub; multiple team projects.
- **Front-End Development – Route Academy:** front-end track of the Full Stack Web Development course (HTML, CSS, JavaScript, React.js, Next.js), clean code principles and practical projects.

Education

Management Information Systems (MIS) – Obour Institute, 2019 – 2023 Final Project Grade: Excellent | General Grade: Good

Soft Skills

Teamwork and initiative, creative problem solving, adaptability and quick learning, clear communication, attention to quality, continuous learning.

Languages

English: Good | Arabic: Native
